

Free skin cancer screenings

Back by popular demand, free skin cancer screenings will be available in May for area Commonwealth employees. These quick, easy screenings will be conducted by board certified physicians at two of the First Onsite Employee Care Clinics in Frankfort.

Appointments are recommended, but walk-ins are welcome.

According to the American Cancer Society, one in five Americans will develop skin cancer in the course of a lifetime. Skin cancer is the most common form of cancer in the U.S. and one of the easiest to prevent. So schedule your screening today!
